

# FOLDABLE LED POSTER DISPLAY

Folding poster screens, as an innovative product that combines flexible display technology and portable design, have shown wide application potential in multiple fields due to their foldable, lightweight, high-resolution and other characteristics

## FOLDING DESIGN

Folding design, small size, easy to store, paired with silent universal wheels for convenient transportation

## MAGNETIC FOLDING BORDER

Magnetic border design, equipped with 8 strong suction magnets and four quick locking hooks on one side, can be easily closed with just one touch

## MULTIPLE SEAMLESS SPLICES

Open the magnetic frame and use the quick locking hook to achieve quick splicing, Can achieve multi screen cascading effect

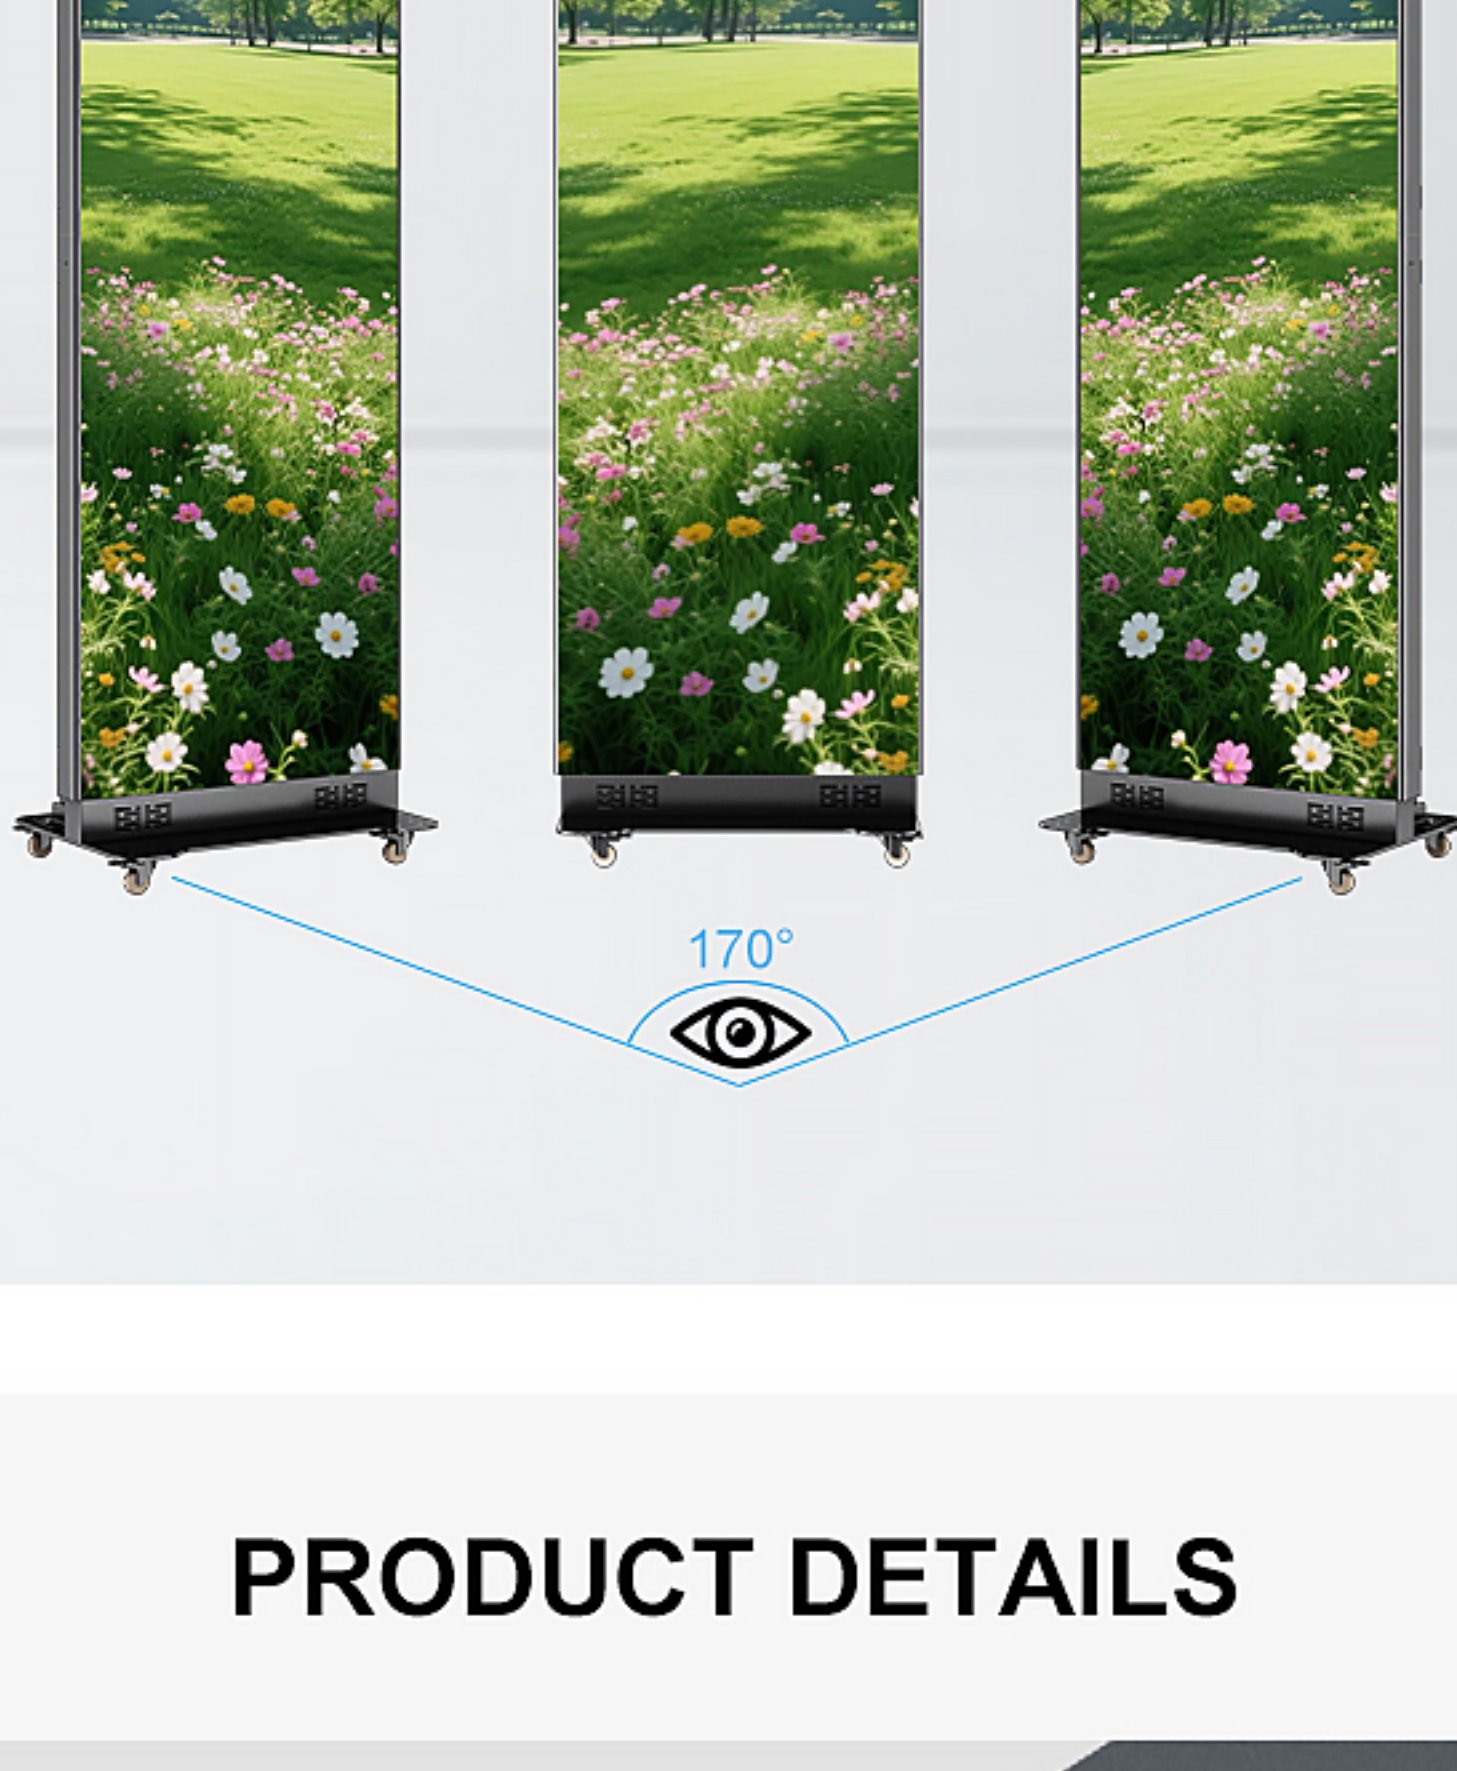

Single display

Multiple screen mode

## 170 ° WIDE VIEWING ANGLE

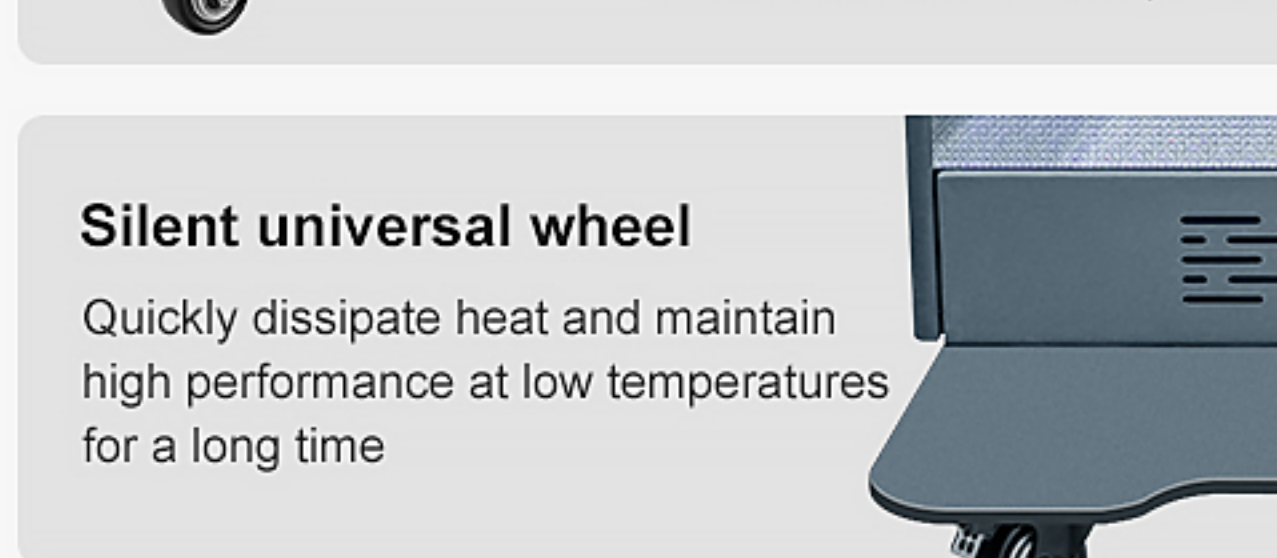

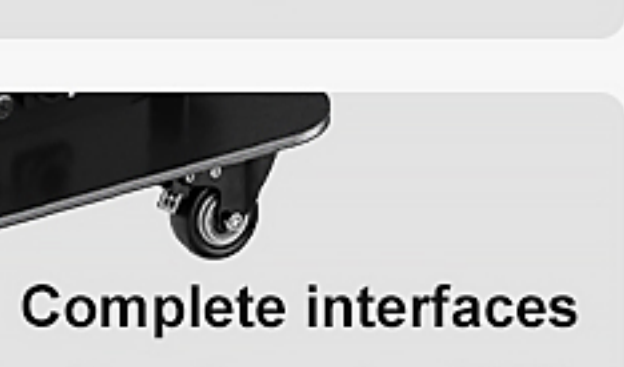

Adopting wide-angle technology, it can be viewed from any angle without deformation or color distortion, and even when multiple people share the screen, it can present consistent bright picture quality

## PRODUCT DETAILS

### Silent universal wheel

The base is equipped with 4 universal wheels, making it easy to move the device at any time

### Complete interfaces

Easy to connect and transfer, such as WIFI, network interface USB, Audio output, etc

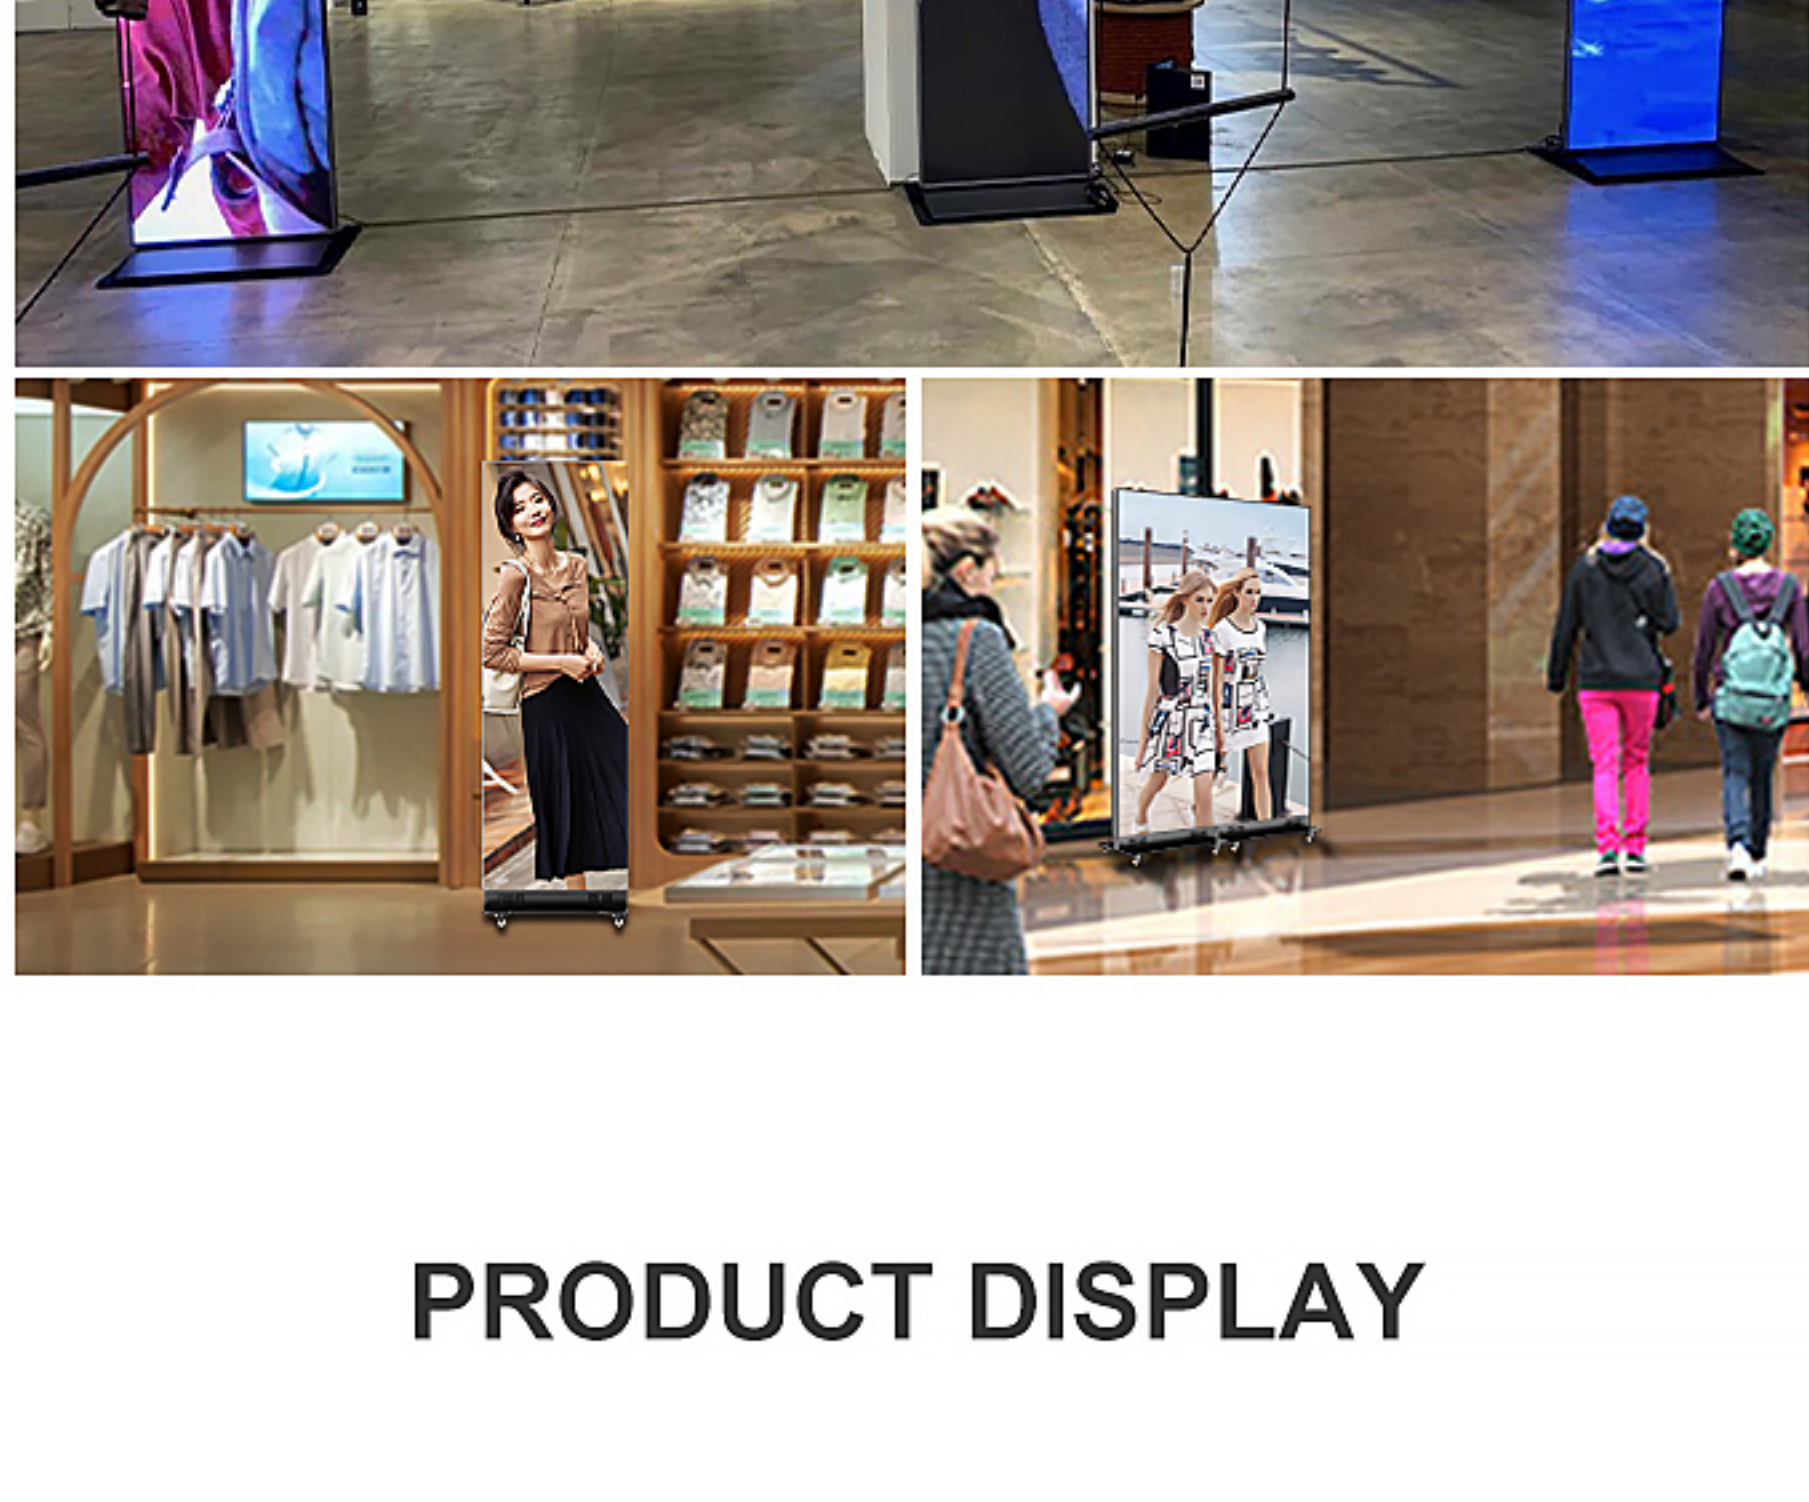

### Silent universal wheel

Quickly dissipate heat and maintain high performance at low temperatures for a long time

## 170 ° WIDE VIEWING ANGLE

Adopting wide-angle technology, it can be viewed from any angle without deformation or color distortion, and even when multiple people share the screen, it can present consistent bright picture quality
