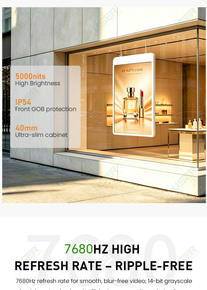
5000NITS HIGH BRIGHTNESS

5000 cd/m² brightness makes this LED window display vivid and eye-catching. Dynamic LED videos stand out better than static posters and ordinary LCD screens from afar.



7680HZ HIGH REFRESH RATE – RIPPLE-FREE

7680Hz refresh rate for smooth, blur-free video; 14-bit grayscale for rich, natural colors. No flickering or scan lines during live-streaming or video shooting — camera-friendly and stable

Low Refresh / Low Contrast

High Refresh / High Contrast

40MM SLIM CABINET CLEAN APPEARANCE

40mm ultra-slim white cabinet with sleek all-angle appearance. Space-saving for shop windows, matching high-end retail, cafes and showrooms.

VARIOUS SIZES & PIXEL PITCHES CUSTOM SELECTION

Four pixel pitches available: P1.9 for ultra-clear close viewing (2–5m), balanced cost-performance P2.5/P2.9 for 3–8m, and budget-friendly P3.9 for viewing over 9m. Stock sizes 49/57/66 inches fit all shop windows with fast delivery.

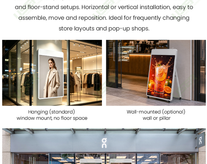
FLEXIBLE INSTALLATION

Standard hanging for shop windows, with optional wall-mounted and floor-stand setups. Horizontal or vertical installation, easy to assemble, move and reposition. Ideal for frequently changing store layouts and pop-up shops.



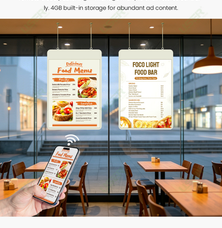
Hanging (standard) window mount, no floor space

Wall-mounted (optional) wall or pillar

Floor stand (optional) – movable for events

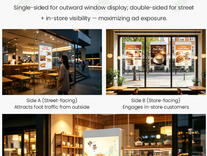
UPDATE ADVERTISING CONTENT ANYTIME

USB offline upload, WiFi control via phone/PC, optional 4G for remote cloud publishing — manage multiple chain stores centrally. 4GB built-in storage for abundant ad content.



SINGLE OR DOUBLE SIDED AVAILABLE

Single-sided for outward window display; double-sided for street + in-store visibility — maximizing ad exposure.



Side A (Street-facing) Attracts foot traffic from outside

Side B (Store-facing) Engages in-store customers

Single-sided: Cost-effective basic model, outward-facing for street display

DESIGNED FOR RETAIL COMMERCIAL SPACES

This LED window display is built for indoor commercial ads requiring strong visual impact and flexible installation.
